What were the challenges in developing the strategy?

- ❖ There are few remaining challenges for implementation of the NSPI (2017-2026).
 - ◆ a limited understanding within the system and society at large about the importance of registration and identification.
 - ◆ weak capacity, especially at the local level.
 - ◆ Moderate levels of ICT knowledge and availability of access to the internet in some remote areas.
 - ◆ lack of clear processes and procedures as well as governance structures for identification work
 - ◆ Limited financing for the important area of identification.

How will we know if the strategy succeeds?

To achieve a long term goal:

Every person identified

Mission:

To register every person and vital events in a transparent, non-discriminatory and efficient manner in order to issue proofs of identification for ensuring equal rights in the society and to provide reliable and protected data for good governance and development of private and public sector of Cambodia by coordinating implementation of NSPI

Vision:

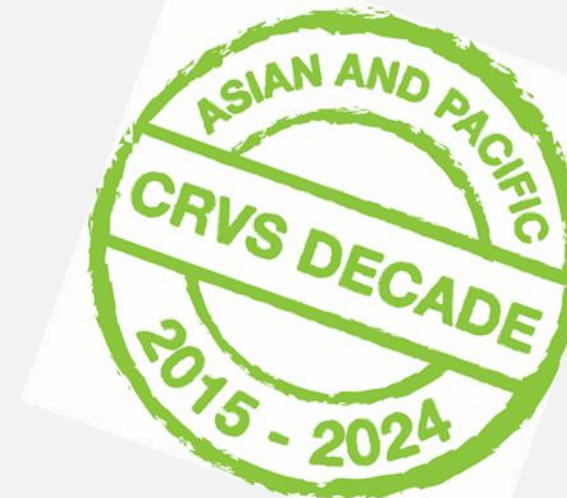

GDI is mission focused, service oriented and modern organization of public administration in Cambodia that manages data about population identity and vital events and produces reliable population and vital records and vital statistics
