Statistical abstract / Eurasian Economic Commission. – Moscow, 2019 (preliminary version)*

# Changes in the Fertility Section of the 2020 Census Questionnaire

## Fertility (for women 15 years and older)

**How many children have you born?**

✓ Indicate the number of children

**How many are alive?**

✓ Indicate the number of children

**Date of birth of first child**

month

year

Indicate the date of birth of the **first-born child** (even in case The child is not alive or does not reside with you)

**How many children have you born alive?**

✓ Indicate the number of children

✓ no one

**Among those:** ➤ boys

➤ girls

day

month

year

Indicate the date of birth of the **last-born child** (even in case The child is not alive or does not reside with you)

# Expected results

**How many children have you born alive?**

- ✓ Indicate the number of children
- ✓ no one

**Among those:**

- boys
- girls

**Coverage of all live-born children, disaggregated by sex, throughout the life of a woman until the census moment**

**Indicate the date of birth of the first-born child**  
(even in case The child is not alive or does not reside with you)

|                      |                      |                      |                      |             |
|----------------------|----------------------|----------------------|----------------------|-------------|
| <input type="text"/> | <input type="text"/> | <i>day</i>           |                      |             |
| <input type="text"/> | <input type="text"/> | <i>month</i>         |                      |             |
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> | <i>year</i> |

**Indicate the date of birth of the last-born child**  
(even in case The child is not alive or does not reside with you)

**Determining the start and end of woman's reproductive activities at the census moment**

**Thank you for attention!**
