

# **1<sup>st</sup> Capacity Building for the Project on Assessing Inequalities in Civil Registration and Vital Statistics in the Philippines**

The first three-day national capacity building workshop will be a hands-on workshop, which is designed based on the needs of the country and aligned with the project's objective to build skills in analyzing data to assess inequalities in the registration of births and deaths. The workshop will supplement lectures with practical sessions and exercises. Participants will comprise staff of the Philippine Statistics Authority (PSA). Basic knowledge on Excel is desirable. Participants should bring a laptop (with Excel) if possible.
