

INSIGHTS IN DETERMINING CAUSES OF DEATH AMONGST ADULTS USING VERBAL AUTOPSIES

Monday, 8 April 2024, 08:00 - 09:00 am (New York), Online

[\(Click to verify your time\)](#)

This webinar is a follow-up to the previous webinar on “Verbal autopsies to determine causes of death amongst adults in countries where vital statistics are lacking”. It introduces additional expert perspectives, including the use of verbal autopsies in capturing causes of death amongst adults in India and Lao PDR.
