ESCAP Statistics Division, in collaboration with international and national organizations, is organizing a three-seminar series under the theme, “Inequalities in CRVS: Let’s really get every one in the picture!”. This seminar series aims to provide practical and clear guidance for countries in Asia and the Pacific on measuring the inequalities in CRVS with the ultimate goal of narrowing the gap in civil registration. Each seminar comprises of a webinar which is open to all, and a subsequent Expert Group Meeting on the same topic is by invitation only. This webinar will hear speakers sharing their knowledge and experiences on indirect demographic methods for measuring completeness and coverage of registration of vital events with focus on their application in low capacity countries.
