Asia-Pacific Stats Café Series:

USING SECONDARY SOURCES TO ASSESS INEQUALITY IN CIVIL REGISTRATION

Monday, 8 February 2021 | 12:00 – 13:30 (GMT +7)

Virtual Meeting

About the session

ESCAP Statistics Division, in collaboration with international and national organizations, is organizing a three-seminar series under the theme, "Inequalities in CRVS: Let’s really get every one in the picture!". This seminar series aims to provide practical and clear guidance for countries in Asia and the Pacific on measuring the inequalities in CRVS with the ultimate goal of narrowing the gap in civil registration. Each seminar will comprise of a webinar which is open to all, and a subsequent Expert Group Meeting on the same topic which will be by invitation only.

This second webinar will focus on using secondary sources to assess inequality in civil registration with speakers sharing their knowledge and experiences of using various data sources for assessing inequalities in civil registration.

Register for the webinar HERE and join the discussion HERE
